Subject: URGENT: Pavillion

Just got off the phone with Ramona. There is a problem with getting the MW02 data from USGS to the Governor b/c it's too big to email and USGS did not post this set of data to their website (I think you know the story there). ORD's report references this data and thus ORD's recommendation is to post this data to our website (the R8 Pavillion site)....this would mean this set of data becomes public as well.

I told her to check with Sarah. What are your thoughts?
